1. BASIS OF PRESENTATION AND GOING CONCERN

The Company's financial statements are presented on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has no source for operating revenue and expects to incur significant expenses before establishing operating revenue. Due to continuing operating losses and cash outflows from continuing operations, the Company's continuance as a going concern is dependent upon its ability to develop a business plan, obtain adequate financing to achieve its plan. In the event that the Company is unable to raise additional capital, as to which there is no assurance, the Company will not be able to continue to exist. The Company's future success is dependent upon its continued ability to raise sufficient capital, not only to cover its operating expenses, but to execute its business plan. There is no guarantee that such capital will be available on acceptable terms, if at all, or if the Company will continue to exist. The Company's major endeavor over the year has been its effort to raise additional capital to meet its administrative expenses, acquire new mineral or other properties or a business. The Company does not currently have any working capital to continue as a reporting company in the United States and Canada. The Company is working urgently to obtain additional financing, which may entail the acquisition of new properties in order to attract such financing. The Company has been assisted by Lance Capital Ltd. (S.K. Kelley & Associated Inc. after amalgamation), a related third party, in meeting its operating expense but there is no guarantee that this will continue.

These financial statements have been prepared in accordance with United States generally acceptable accounting principles applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements.

2. NATURE OF OPERATIONS

The Company was previously an exploration stage mining company and has exited the exploration stage since 2010 pursuant to the bankruptcy of its Canadian subsidiary, Yukon Gold Corp. ("YGC") and is currently a Shell.

On May 16, 2011, the Company merged into its wholly-owned subsidiary, a Nevada corporation, (referred to herein as the "Nevada Corporation") being the surviving entity (the "Merger"). As a result, Yukon Gold Corporation, Inc. effected a re-domiciliation from the State of Delaware into the State of Nevada. The Nevada Corporation, also named "Yukon Gold Corporation, Inc.", has authorized capital of 500,000,000 common shares. Pursuant to the terms of the Merger, each five (5) shares of the Company's common stock immediately before the Merger were exchanged for one (1) share of common stock of the Nevada Corporation. As a result, 148,159,936 issued shares of the Company's common stock were exchanged for 29,632,336 shares of the Nevada Corporation's common stock (See Note 4: Capital Stock). The par value of the Company's common shares remains at $0.0001 per share. All of the assets, rights and liabilities of the Company were assumed by the surviving Nevada Corporation. The Merger was approved by the written consent of a majority of the Company's shareholders. All references to common shares and per common share amounts in this paragraph are pre 10:1 rollback effective April 4, 2014.

All references to common shares and per common share amounts have been retroactively adjusted to reflect the ten-for-one reverse stock split which was effective April 4, 2014, unless otherwise noted.

2. NATURE OF OPERATIONS, Cont'd

On September 14, 2011, the Company withdrew as a reporting issuer under the Securities Exchange act of 1934, as amended, pursuant to the filing of a Form 15 with the Securities and Exchange Commission in the USA. The Company's reports prior to September 14, 2011 are available at the SEC's website at www.sec.gov/edgar/searchedgar/companysearch.html. The Company is listed on the OTC Markets Group Inc. in the USA under the Pink category under the symbol "YGDCD" and changed to "GMVI" on August 14, 2014 and intends to continue to file full disclosure information on the OTC Markets Disclosure and News Service at http://www.otcmarkets.com and with the Ontario Securities and Exchange Commission on SEDAR at http://www.sedar.com.

On March 18, 2014 the Company completed an Agreement with GlobalMin LLC ("GlobalMin"), incorporated in Nevada, USA and GlobalMin Guyana Inc ("GGI") incorporated in Guyana, South America to acquire 100% ownership of GGI and GlobalMin's 77% interest in the Guyana Platinum Project ("GPP") controlled by GGI, subject to board and shareholder approval.

Consideration for the purchase is to be 200,000,000 pre-rollback common shares of the Company plus additional consideration if further interest is acquired in the GPP.

On March 21, 2014, the Company's Board of Directors approved the Agreement, as well as approved a Name Change to GlobalMin Ventures Inc., the issuance of the 200,000,000 pre-rollback common shares, as well as an undertaking by the Company to raise a minimum of $400,000 to a maximum of $600,000 at $0.01 per "Unit" (pre-rollback), where each Unit would consist of one (1) Share and (1) Share purchase warrant. Each Warrant would entitle the holder to purchase one (1) share at an exercise price of $0.02 per pre rollback Share until December 15, 2015. All matters were based on written consent of the Shareholders holding a majority of the outstanding shares of the Company.

Item 1a. RISK FACTORS

1. WE HAVE NO WORKING CAPITAL OR OPERATING REVENUE

The Company has no operating business and no working capital or operating revenue and very limited resources to continue to prepare and file the regular reports required to meet the disclosure requirements of a "Current Information" issuer in the "OTC Pink" tier of the equity markets maintained by OTC Markets Group Inc. The Company's shares currently trade on the "Pink" tier of the OTC Markets under the symbol "GMVI" as of August 14, 2014. While the Company's shares are not listed on any exchange in Canada, the Company has continued to meet the filing requirements of the Ontario Securities Commission ("the OSC") but may be unable to do so in the future. Failure to continue to provide disclosure and information on SEDAR or to OTC Markets Group Inc. may result in the Company's shares being dropped to a lower category of the OTC Market Group Inc. listing and the de-listing of the Company's shares by the OSC.

2. GOING CONCERN

The Company has included a "going concern" disclosure in its financial statements for the six month period ended October 31, 2014 which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has no business and no source for operating revenue and expects to incur significant expenses before establishing operating revenue. Due to continuing operating losses and cash outflows from continuing operations, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. In the event that the Company is unable to raise additional capital, as to which there is no assurance, the Company will not be able to continue doing business. The Company's future success is dependent upon its continued ability to raise sufficient capital, not only to maintain its operating expenses, but to acquire properties or a new business. There is no guarantee that such capital will be available on acceptable terms, if at all, or if the Company will attain profitable levels of operation. The Company's major endeavor over the past year has been its effort to raise additional capital to meet its administrative expenses, acquire new mineral or other properties or a business. The Company does not currently have any working capital to continue as a reporting company in the United States and Canada. We are working urgently to obtain additional financing, which may entail the acquisition of new properties in order to attract such financing. The Company has been assisted by Lance Capital Ltd. in meeting it operating expense but there is no guarantee that this will continue.

3. RULE 144 IS UNAVAILABLE TO OUR SHAREHOLDERS

Consequently, holders of restricted shares of the Company may be unable to re-sell their shares or deposit legended shares in brokerage accounts. The Company has no current plans to register the re-sale of its Shares.

4. WE MAY HAVE TO ACQUIRE NEW MINERAL PROPERTIES OR ENGAGE IN A NEW BUSINESS TO SECURE FINANCING TO REMAIN VIABLE.

The Company must immediately secure additional financing or engage in a new business to remain viable. Management of the Company believes that we must identify and obtain purchase rights to new mineral properties or a new business in order to attract such financing.

5. THERE ARE PENNY STOCK SECURITIES LAW CONSIDERATIONS THAT COULD LIMIT YOUR ABILITY TO SELL YOUR SHARES.

Our common stock is considered a "penny stock" and the sale of our stock by you will be subject to the "penny stock rules" of the Securities and Exchange Commission. The penny stock rules require broker-dealers to take steps before making any penny stock trades in customer accounts. As a result, our shares could be illiquid and there could be delays in the trading of our stock which would negatively affect your ability to sell your shares and could negatively affect the trading price of your Shares.

6. OUR BUSINESS IS SUBJECT TO CURRENCY RISK

The Company may conduct some of its administrative and operating activities in Canadian dollars. The Company is therefore subject to gains or losses due to fluctuations in Canadian currency relative to the US dollar. The Company does not use foreign currency hedging to mitigate the risk.

7. LICENSING BY THE GUYANA GEOLOGY AND MINING COMMISSION

On closing of the acquisitions to acquire the interest in the Guyana Platinum Project, the company will acquire GlobalMin Guyana Inc. which holds an Exploration Permit covering 3.3 million acres and has applied for 10 Prospecting Licenses as provided for in the Exploration Permit. The Prospecting Licenses have not yet been received and as the Corporation believes they will be issued it can not be guaranteed until actually received.

8. FINANCIAL REQUIREMENTS BY THE GUYANA GEOLOGY AND MINING COMMISSION

The Guyana Government requires proof that we have available $1,500,000 to cover the first years work commitments on the Prospecting Licenses and we require approximately $220,000 to pay for the licenses and post a bond. The company does not presently have these funds but is in negotiations with several parties for adequate funding however there is no guarantee the Company will succeed in arranging the required funding.
